Election/Restrictions:

1. This application is a 371 of PCT/CA97/00969. For applications filed under 371, PCT rules for lack of unity apply.
 - I. Claims 1-2, (5-12, 14 and 16, in part), drawn to an isolated polynucleotide encoding the GLP-2 receptor of SEQ ID NO:12, said polynucleotide comprising the nucleotide sequence set forth in SEQID NO:11, a cell comprising said polynucleotide and a recombinant GLP-2 of SEQ ID NO:12 and a method of identifying ligands for GLP-2 by using the cell comprising the nucleotide of SEQ ID NO:11.
 - II Claim 13, (in part), drawn to an isolated antibody which selectively binds to a GLP-2 receptor encoded by the polynucleotide of SEQ ID NO:11.
 - III. Claims 3-4, (5-12, 16, in part), drawn to an isolated polynucleotide encoding the GLP-2 receptor of SEQ ID NO:2, said polynucleotide comprising the nucleotide sequence set forth in SEQID NO:1, a cell comprising said polynucleotide, and a method of identifying ligands for GLP-2 by using the cell comprising the nucleotide of SEQ ID NO:1.
 - IV Claim 13, (in part), drawn to an isolated antibody which selectively binds to a GLP-2 receptor encoded by the polynucleotide of SEQ ID NO:1.
 - V Claim 15, drawn to an isolated GLP-2 receptor comprising the amino acid of SEQ ID NO:2.

The inventions are distinct, each from the other because of the following reasons:

Pursuant to 37 C.F.R. 1.475(d), this Authority considers that the main invention in the instant application comprises the first-recited product, namely the nucleic acid

encoding the polypeptide of SEQ ID NO:12, said polynucleotide comprising the nucleotide sequence set forth in SEQID NO:11, a cell comprising said polynucleotide and a recombinant GLP-2 of SEQ ID NO:12 and a method of identifying ligands for GLP-2 by using the cell comprising the nucleotide of SEQ ID NO:11.

Further, pursuant to 37 C.F.R. 1.475(b)-(d), the ISA/US considers that the materially and functionally dissimilar products of groups II-V do not correspond to the main invention. This Authority therefore considers that the several inventions do not share a special technical feature within the meaning of PCT Rule 13.2 and thus do not relate to a single general inventive concept within the meaning of PCT Rule 13.1.

Having shown that these inventions are distinct for the reasons given above and have acquired a separate status in the art by their recognized divergent subject matter as defined by MPEP § 1850. Therefore, an initial lack of unity for examination purposes as indicated is proper.

2. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor ship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
